# Hala Shihab

Frontend Software Engineer
shihabhala56@gmail.com | 206-854-0710 | Kent, WA

## Professional Summary

Frontend-focused Software Engineering student with hands-on experience building full-stack web applications using React and Flask. Strong in developing responsive, user-friendly interfaces and integrating RESTful APIs. Passionate about clean code, modern UI design, and applying software engineering best practices in collaborative environments. Seeking a Software Engineering Internship (Frontend).

## Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Design
Backend: Python, Flask, RESTful APIs, SQLAlchemy
Tools & Practices: Git, GitHub, Agile Methodologies, Version Control

## Projects

### Recipe Book Web Application (Full-Stack Project)

- Built a responsive full-stack web application using React (frontend) and Flask (backend).
- Designed and implemented RESTful APIs using SQLAlchemy.
- Developed full CRUD functionality for managing recipes and categories.
- Implemented reusable React components and managed state using Hooks.
- Used GitHub for version control and collaboration.

### Responsive Portfolio Website

- Developed a personal portfolio website using HTML, CSS, and JavaScript.
- Applied responsive design principles to ensure cross-device compatibility.
- Optimized layout and styling to improve user experience.
